

Bud Meyer found the JDH chips. They came from an estate sale. There is plenty of info on the internet about John H Dollar, Dollar Steamship Line, his family, and President Cruise Line which still operates today. I've been on over 100 cruises but never sailed President. At least than I can remember. *vbg*

United States Playing Card company (USPC) records posted here.

John H Dollar

Chips made 2/1/35

JDH3

Birthdate: October 7, 1887

Birthplace: Michigan, United States

Death: Died April 7, 1936 in San Francisco, California, United States

Cause of death: Cancer

Vice-president of the Dollar Steamship Line 192?-1936. Husband of Agness Barr Dollar (1907-1936) and the father of Robert Dollar, II (1912-1973), Alice Barr Dollar Hayden (1917-1997), Virginia Dollar (?) and John Harold Dollar, Jr. (1919-1917) all of whom were born in Shanghai, China. Harold Dollar lived in Shanghai from 1907-1927.

Robert Dollar took over the business

Ran it until:

President Cruise line bought them out and changed the name.

In the past I have been known to send this type of chip to Steve Passalacqua asking if it was a "Die Cut" or a "Reverse Die Cut." *vbg* I guess he got tired of the emails and sent me this. Thank you Steve.

All logos on DieCut chips are the color of the paper they are cut from. Most diecut logos are cut from white paper, a few are cut from colored paper.

DieCut chips

All logos on Reverse DieCut chips are the color of the chip. Most reverse diecut chips are cut from a round white inlay, a few are cut from other shapes.

Reverse DieCut Chips
